

# 100 Aufgaben zum Starten

Aufgaben-Nummer

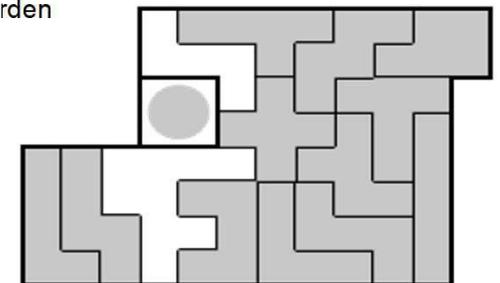

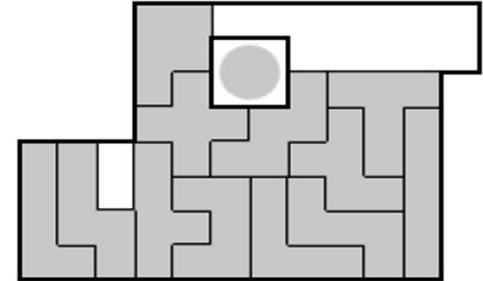

4693

Es ist sinnvoll, mit einfachen Aufgaben anzufangen.

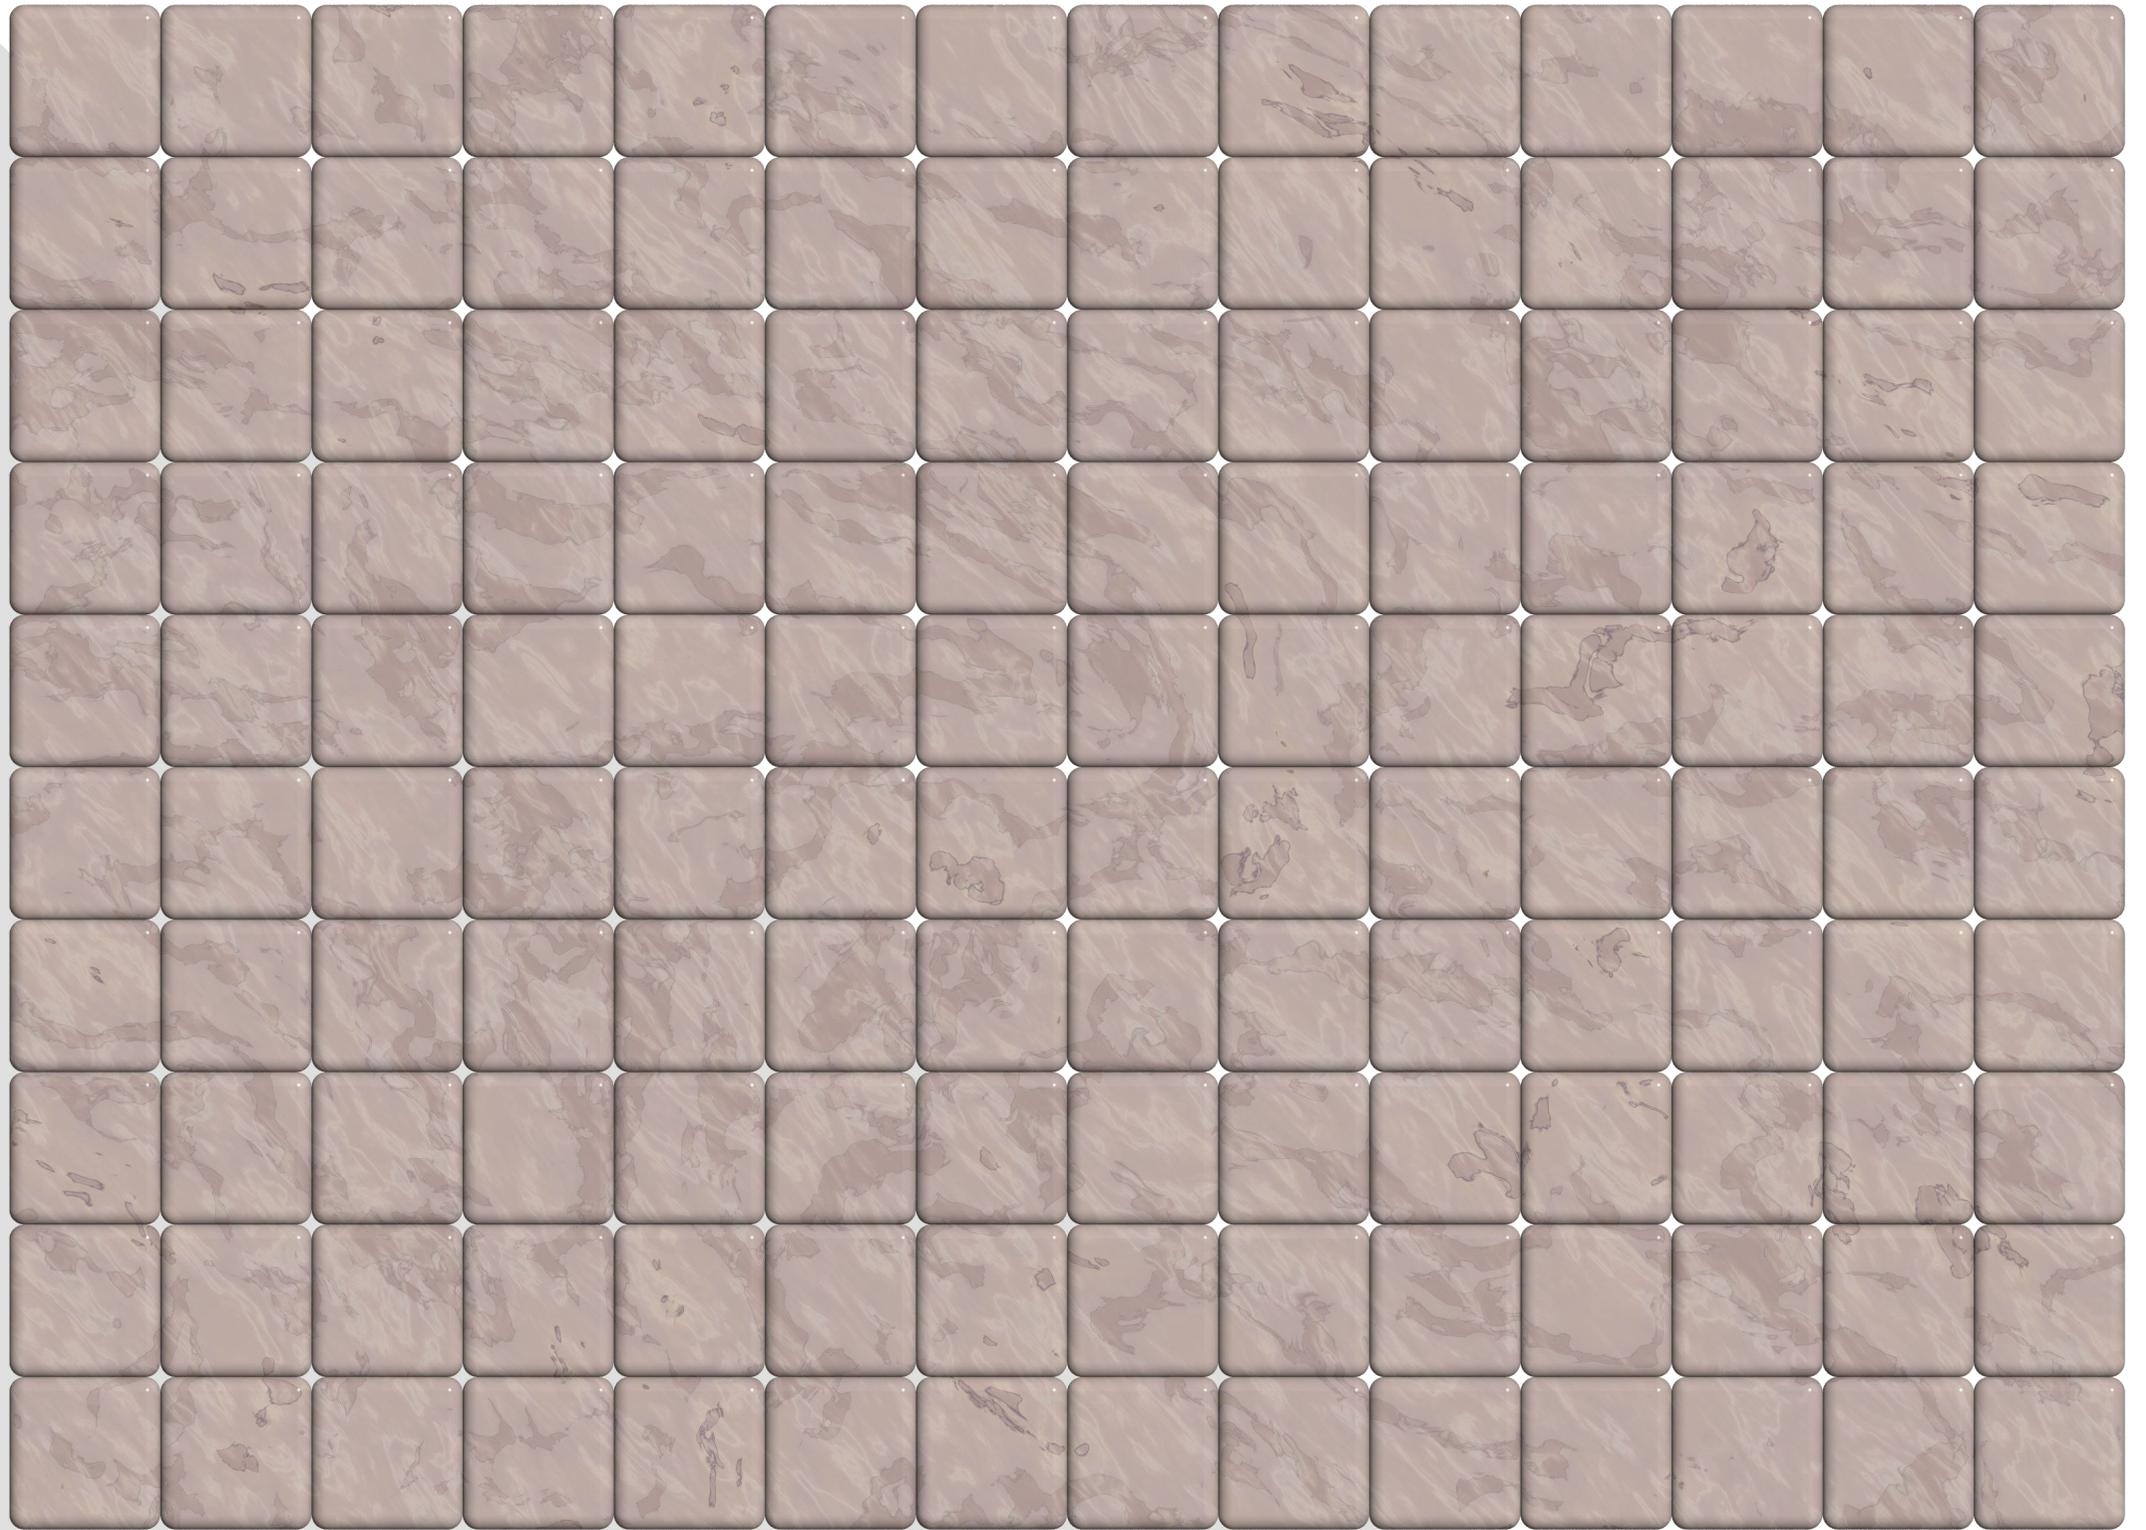

Sie kennzeichnen sich durch folgende Merkmale :

- Zwei Steine am König passen ins Ablagefeld
- Der König kann dann laufen  
( manchmal muss erst noch ein Stein gelegt werden )
- Auch nach jedem Paar gelegter Steine kann der König laufen
- Bei jedem Zug hast Du zwei Steine im Blick
- Es werden nur die Möglichkeiten genommen, bei denen beide Steine gelegt werden können
- Die beiden Steine werden möglichst kompakt abgelegt.
- Es kommt vor, dass zwei Steine vor oder unterhalb direkt vor dem König liegen, dann kann der König erst nach dem Weglegen des zweiten Steins gehen
- Es kommt vor, dass derselbe Stein zuerst nach vorne gelegt wird, damit der König gehen kann und dann hinter den König gelegt wird
- Sonst wird jeder Stein nur einmal gelegt  
( Bei den schwerern Aufgaben muss man auch mal hinter dem König aufräumen )
- Wenn das Kreuz im Weg liegt, kann es auch gelegt werden  
( bei den schweren Aufgaben ist das nicht so )

Insbesondere interessiert mich, ob das Material in der Schule verwendet wird.
